

Norinne Danzinger-Dueck

I'm an experienced teacher specializing in Voice, Piano and Rudiments Theory. My studio is a wonderful mix of beginner, intermediate and advanced students. I believe that music is a gift that all children should have the opportunity to explore and experience. My in-home studio is in a convenient location and is a comfortable place for new students to explore their musical abilities. I am proud of all my students achievements. Some of my students have won provincial Gold medals and many have gone on to pursue music at the university level.

I have a Bachelor of Education Degree as well as my ARCT in Voice Performance. I believe music is a life long skill as I am currently studying to complete my piano pedagogy with the RCM.
